## The Star of the Sibyl: Analysis and History of a Late Medieval Illustrated Prophecy

Hind says that the comet was observed in April and May, 1066, throughout Europe and China, and that a readjustment of the elements of Halley's Comet, due, say to perturbations, would lead to the conclusion that the comet, observed in 1066, was Halley's. Henderson in a letter to the Mechanics' Magazine on August 22, 1835, that appeared in the issue for August 29.

## Star of Bethlehem Bibliography

General explanations for the Chinese old calendar systems, Chinese constellations, and related subjects are explained by other authors ; ; , and the

units of length used in the astronomical records are also given in of our paper ; therefore, we do not repeat them here. Project MUSE® Project MUSE is a leading provider of digital humanities and social sciences content, providing access to journal and book content from nearly 300 publishers. On the night of a yi-chou 2 day 1554 July 19 , it went near the horizon and disappeared Ming Shi Zong Shi Lu.
