Electricity and gas codes, guidelines and policies

If you are the owner of copyrighted material on this website and feel that our use of such material is not covered under 17 USC § 107, please contact us. This was the convention chosen during the discovery of electricity.

EMA : Electricity Policies and Regulations

We now know this is incorrect. Codes of practice deal with particular issues and don't cover all hazards or risks.

Energy Law and Regulation

The Web site includes links to licenses and application forms as well as regulations and standards and a PDF. The Act outlines electrical safety definitions and duties.

Electrical

The site consists of various Journeyman electrician practice tests with each consisting of 10 to 15 multi-choice questions. The flow of electrons is termed electron current. Further Reading: Coulomb's law The magnitude of the electrostatic force of attraction between two point charges is directly proportional to the product of the magnitudes of charges and inversely proportional to the square of the distance between them.

Electrical Exam Practice Tests

The business or business owner has the primary duty of care under the Electrical Safety Act.

Electrical safety laws

Uganda - An act to provide for the establishment of the Electricity Regulatory Authority; to provide for its functions, powers and administration; to provide for the generation, transmission, distribution, sale and use of electricity; to provide for the licensing and control of activities in the electricity sector; to provide for plant and equipment and for matters relating to safety; to liberalize and introduce competition in the electricity sector; to

repeal the Electricity Act, Cap 135 and the Uganda Electricity Board Special provisions Act, Cap.

Electricity and the law

The Honourable Grace Grace MP, Minister for Industrial Relations, has appointed Mr Dick Williams to lead a review of the Electrical Safety Act 2002. This includes links to regulations and standards and licenses and license application forms. The constant of the equation is k.
