This book summarizes a generation of labor by one of America's master scholars. As they have so well known, the fly in that ointment has always been that working class whites do not adhere to the mentality or ideology of the Marxist Proletarian model, preferring instead to identify with the corporate class that exploits them as much as they exploit the non-white working class, against whom they see themselves as competing against.

Review: The Arrogance of Race: Historical Perspectives on by Vernon J. Williams Jr.

The Black Image in the White Mind; the Debate on Afro-American Character and Destiny, 1817-1914. The chapter focuses on the War on Drugs, which ranges from policies carried out to ostracize African Americans to straight unfair treatment from police officers — most of them being Caucasian. Everyone concerned with the racial crisis in America could profit by a close reading of this book.
