## Full text of

The species was named after Saint Lawrence, a 3rd century AD deacon of the early Catholic church who was tortured to death by a Roman prefect on a hot grill, which branded him with gridiron marks Kirsch 1910. Most of the genera can be found in Hemphillian and Blancan deposits and definitive species identifications are required for refined biochronological age estimates.

## The biological response to the 1977 regime shift in the California Current
