Totie Fields

The Remaining Cost field shows the remaining scheduled expense that will be incurred in completing the remaining scheduled work. The Group By Summary field indicates whether this row in the task or resource sheet is the summary row for tasks or resources grouped by a particular category.

Fields BMW Winter Park

From tasks and projects to conversations and dashboards, Asana enables teams to move work from start to finish—and get great results.

Fields BMW of Daytona

The Budget Work field is used to enter or review budget work for budget work and material resources. The Baseline1 through Baseline10 Work fields store the total planned person-hours scheduled for a task, resource, or assignment. Field Description The Actual Cost field shows costs incurred for work already performed by resources on their tasks, together with any other recorded costs associated with the task.

Fields Chrysler Jeep Dodge RAM

The Work Variance field contains the difference between baseline work of a task, resource, or assignment and the currently scheduled work. This field is controlled by the workflow. The Hyperlink field shows the title or explanatory text for a hyperlink associated with a task, resource, or assignment.

Fields Chrysler Jeep Dodge RAM

The Hyperlink Address field contains the address for a hyperlink associated with a task, resource, or assignment. When Microsoft Project detects a potential scheduling conflict with a manually scheduled task, it generates a warning and the field containing the problem data is underlined in red. The Regular Work field shows the total amount of nonovertime work scheduled to be performed by resources.
