## Hebron Advanced Dentistry

We also treat individuals from Weston, Davie, Aventura, Sunrise, and surrounding areas. We will then prepare the tooth by removing some of the damaged tooth structure in order to make room for the crown. Fortunately, there are options for correcting tooth loss.

## Department of Restorative Dentistry

Crowns can provide support to teeth that have become weak due to decay, damage, or root canal therapy. There are research opportunities for students interested in building on their dental experiences. A certificate of attendance is awarded upon successful completion of the program.

## Hebron Advanced Dentistry

For your comfort we have carefully designed our practice to achieve this kind of dental care in an atmosphere of efficiency, warmth and understated elegance. Placing Dental Crowns To place a dental crown, you will need to make two visits to our office. Three out of four Americans have some form of periodontal disease and only 3 out of 100 will ever get treated before its too late.

## Advanced Restorative Dentistry

If you live in Plantation or Boca Raton, contact our practice for dental crowns, bridges, or other restorative dentistry solutions. Our dentists will carefully examine your teeth and make a recommendation based on your unique needs. Our experienced providers use the latest techniques and technology to provide you with an excellent, personalized patient experience in a friendly and comfortable office.

## Restorative Dentistry

Porcelain Inlays and Onlays Inlays and onlays are custom-made porcelain restorations that are used to restore teeth that have been damaged by decay. In addition to the CED pre-clinical work-shop experience, the program includes didactic presentations, review of esthetic and related literature, advanced occlusion and dental materials with the goal of providing dentists with a scientifically-based rationale for all diagnostic, treatment planning and patient care decisions.
