As Broadman argues, we need a broader prism to assess control and corporate governance in emerging economies than simply the relationship between providers of equity capital and those running firms; the Berle and Means model of entrenched management and weak dispersed shareholders is not the issue.

Using Policy Labs as a process to bring evidence closer to public policymaking: a guide to one approach

Our aim is to highlight key enablers to bringing evidence to policymaking that have already been identified in these studies. Governance infrastructure and US foreign direct investment. Foreign policy analysis allows us to better understand how political actors make policy decisions and how they relate to other foreign government and non-government entities.

Using evidence to influence policy: Oxfam's experience

The logic of collective action; public goods and the theory of groups. The LDP-Kōmeitō coalition held more than two-thirds of the seats in the lower house when Fukuda came to power in 2007, but it had lost its majority in the upper house the previous summer. Analysis of the potential for takeovers or minority investments in Asian business would need to take account of how the informal institutions of business groups, blat, or the state will affect—reinforce, invalidate, or replace—the formal ownership stakes in companies and will in turn affect performance of those companies.

Lecture 7: Policymaking in Japan

To that end, we revisit these issues at greater length in the concluding section, alongside how future work might address them. But when thousands and millions of Americans wake up and drive to work, the impact is large enough to change the entire earth system.
