### Presentation

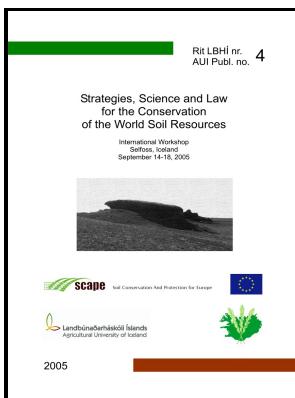

A revised proposal should be put out for consultation that includes measures, rules and regulations that would actually achieve the proposed objectives.

### Local government submissions

Also that the persons listed below be permitted to remain after the public has been excluded for the reasons stated. We have asked to be part of any follow-up process, to ensure potential impacts on tourism are adequately represented. TIA is pleased to see the areas of investment proposed by the Council.

it. It is not clear if the forum included expert presentations.

### **Local government submissions**

TIA was surprised to see in the LTP that the Council is making a conscious decision not to allocate budget for co-funding any future tourism infrastructure investment over the next ten years, due to capital and operational costs.

### **Agenda of Manawatu District/Palmerston North City Joint Strategic Planning Committee**

TIA believes that the Tasman District Council's proposal to cut its funding of Nelson Regional Development Agency by 25% is short-sighted and not in the long-term economic interests of the district. TIA expresses its support for the Council's plan to revitalize the district's towns and change how money for tourism promotion is collected. The report for the period ending 31 December 2018 is attached.

### **10 Year Plan**

Council staff were encouraged to participate by providing advice and information on feasibility of different options for the plan. We have asked to be part of any follow-up process, to ensure potential impacts on tourism are adequately represented.
