### Environmental Assessments

Construction of the project was completed in October 1954. Students will interact with the faculty through email, online discussion groups, and chat and video conferencing sessions. The Eastpoint Channel Navigation Project is a part of the Federally authorized Apalachicola Bay Project.

### Environmental Assessment

Restoring the beach-dune system allows greater stability and sustainability of the coastal environment once it has become re-established. Students enroll in required courses, electives and complete a professional project as part of the curriculum.

### Environmental Assessments

Learn more about the , or explore the. In addition some courses may require visits to campus or a remote location for assignments or exams.

### Environmental Assessments

The proper management of these risks requires scientifically-based decision making. Pollutants and naturally occurring substances pose a potential risk of having an adverse impact on human health and the environment.
