Advanced Practice Psychiatric Nursing: the Need for a Blended Role

We ask the question, what would differentiate a psychiatric NP clinical concentration from a psychiatric CNS clinical concentration? Within the nursing profession itself, documenting the nature of each of these advanced practice roles and demonstrating the differences CNSs and NPs make in the delivery of client care is an oftentimes heated debate.

Transforming nursing, midwifery and health professions roles: advance nursing practice

As a result, boards of nursing, via their 1995 Delegate Assembly, directed the NCSBN to collaborate with nurse practitioner specialty certification organizations to make significant progress toward legally defensible, psychometrically sound nurse practitioner examinations that are sufficient for regulatory purposes.

Transforming nursing, midwifery and health professions roles: advance nursing practice

ANPs have the authority to refer, admit and discharge within defined clinical areas.

History of APRN

Media Coverage The nursing press, including the numerous publications of organizations concerned with advanced practice nursing, has given frequent coverage to advanced practice regulatory issues since first raised by the NCSBN in 1992. Locating the debate within a specialty such as advanced practice psychiatric-mental health nursing adds more fuel to the fire by trying to determine which advanced practice role should be the predominant one, the CNS or the NP.
