If consciousness is unphysical, why do we lose it under anesthesia or a blow to the head? A further 2,700 Polish priests were executed a quarter of all Polish priests , and 5,350 Polish nuns were either displaced, imprisoned, or executed. And when the Book of Daniel was showed him where in Daniel declared that one of the Greeks should destroy the empire of the Persians, he supposed that himself was the person intended.

This would be in line with the positive association between Openness and tolerance for ambiguity — open people can handle complexity and ambivalence — and the negative link between Openness and need for closure — open people are less likely to see the world in black-or-white terms and are generally more comfortable with uncertainty.

**Science and Religion**

Galileo already had plenty of enemies in academia who resented his fame, influence and condescending style and when abandoned by the Pope he ran out of friends.
