### Kate Nichols

Her research focuses on experiences and action on climate change in the Pacific. Reilly studies the art of the Middle Age, especially manuscripts intended to be used by monks and nuns.

### Aubrey Beardsley

I am not a book expert, but was wondering where I could go to get a good appraisal of my books. Zygmunt was a Fulbright Scholar in 2013. He has written extensively on the illegal antiquities trade, and has worked on archaeological projects in the United Kingdom, Greece and Jordan.

### Aubrey Beardsley

This manuscript also contains mathematical

diagrams, and in particular, a colourful, highly decorated multiplication table for Roman numerals. The suitably mournful introduction and afterword are provided by our founders, Anne C Perry and Jared Shurin.

#### **John J Johnston**

Her book *Modern Painters, Old Masters: The Art of Imitation from the Pre-Raphaelites to the First World War* 2017 argues that Victorian artists were, paradoxically, at their most original when they imitated the Old Masters most faithfully.
