### Flexibility and Manufacturing Productivity: Part 1

The proposed implementation methodology is based on the utilization of any one of the available formal discrete-event-system control theories in conjunction with state-of-the-art industrial programmable-logic controllers PLCs. The proceedings of ICRCA2017-ICRCA2019 have been successfully indexed by EI and Scopus within 4 months after the conference.

### Deadlock Resolution in Automated Manufacturing Systems

Proposals for tutorials and workshops, and organized sessions, on new topics or innovative applications are invited.

### A New Data Fusion Method for Scanned Models

He has made fundamental contribution to modeling and control of nonlinear systems involving hysteresis nonlinearities. Exhibits from both industries and research laboratories are welcome.

### Conferences in Dubai 2021,2022

Atlanta, GA, USA, April 2015.
