The purpose of any invention, therefore, is to create something different from what we have been doing, be it in quality or quantity or both. Most students know that few things are universally true or false, so distractors with these words in them can often be easily dismissed. In the current economic climate, standing out from the crowd will be vital for your students as they progress through further and higher education into the world of work.

## GOLD & Creative Curriculum Training

So accelerated programs are often more competitive than the conventional extended ones. It should look to push boundaries, encourage learners to think creatively and be confident enough in their own ability to take the risks necessary to succeed. It may also have a devastating impact on our ability to socialize, collaborate, and survive.
