## A study in Britain and France of the development of cross

Cultures also vary with respect to the meaning they impart to illness, their way of making sense of the subjective experience of illness and distress. Therefore, this Supplement encourages people with mental illness, regardless of race or ethnicity, to take advantage of scientific advances and seek effective pharmacological treatments for mental illness. Health and mental health care in the United States are embedded in Western science and medicine, which emphasize scientific inquiry and objective evidence.

However, the recent Surgeon General's Report on Youth Violence cites self-reports of youth from both majority and minority populations that indicate that differences in violent acts committed may not be as large as arrest records suggest. This example, while not necessarily generalizable to other Hispanic groups, suggests avenues by which other culturally based family differences may be related to the course of mental illness.

## Impact of culture on business

Many Mexican Americans, Puerto Ricans, and Pacific Islanders became U. Once an organization develops a clear understanding of its culture and decides on a direction for cultural change, it is critical to move rapidly from analysis to action.

Despite improvements over the last three decades, research continues to document racial discrimination in housing rentals and sales and in hiring

practices. The variations can affect the pace of drug metabolism. A faster rate of metabolism leaves less drug in the circulation, whereas a slower rate allows more drug to be recirculated to other parts of the body. .

Whether racism and discrimination can by themselves cause these disorders is less clear, yet deserves research attention. The Indian Removal Act of 1830 forced American Indians off their land and onto reservations in remote areas of the country that lacked natural resources and economic opportunities. In the future, defining and measuring different aspects of culture will strengthen our understanding ethnic differences that occur, beyond those explained by poverty and socioeconomic status.
