John Stuart Mill Biography

Mill not only called for legal defenses of free speech but also for the promotion of individuality and widespread tolerance on a societal level. He claims to be arguing that what the quantitative hedonist finds extrinsically more valuable is also intrinsically more valuable II 4, 7.

Basic liberties are important because they are necessary conditions for this sort of reflective self-direction and self-realization. John Stuart Mill 1806-1873 is considered the most influential English-speaking philosopher of the nineteenth century. According to him, the source of the oppression of women is the domination of the family and society.

The Life of John Stuart Mill timeline

Throughout the chapter, Mill explains and answers some of the most common arguments against his theory. It is the justification, and ought to be the controller, of all ends, but it is not itself the sole end. Acknowledgments I owe thanks to Reuven Brandt, Aaron Cobb, Sam Clark, Fred Kroon, John Skorupski and Nick Unwin for reading drafts, offering comments, and correcting errors.

John Stuart Mill's Liberal thought on Education and the Dissemination of Education in Enforcing the Right of Liberty

If he defines right action in terms of conformity with principles with optimal acceptance value, then he is a rule utilitarian. We generally believe that not all actions must be judged in regard to a moral point of view.

John Stuart Mill (Stanford Encyclopedia of Philosophy)

Mill addresses an obvious objection: what leads us to will to change our character? The corollaries from the principle of utility, like the rules of every practical art, can be improved indefinitely, and while the human mind is progressing they are constantly improving. This is fleshed out by the discussion of Mill's attraction to Comte's idea of the Religion of Humanity. But if it be meant that in such cases the pleasure or pain is consciously referred to self, I take this to be a mistake.

John Stuart Mill (1806)

There are imperfect obligations which have no correlative right CW 10, 247. A virtuous person has the disposition to follow moral rules.
