## Yan Xishan yu Jin xi / Wang Xiang zhu bian

On 18 December 1931, a group of students supported and perhaps orchestrated by officials loyal to Yan gathered in Taiyuan to protest the Nanjing government's policy of not fighting the Japanese. Shit, I am getting off track again.

### Imperial History

During the Xian Incident itself Yan actively involved himself in the negotiations, sending representatives to prevent Chiang's execution and the civil war that Yan believed would follow while pushing for a united front to resist the Japanese invasion of China that Yan believed was imminent. Why just last week... wait, I am getting off track again.

### Yan Xishan jia shi (Book, 2001) [quizapp.evertonfc.com]

The men of Cao were captured, and Yu Jin surrendered, while a fellow officer, Pang De, refused to surrender and was executed. Even before studying in Japan, Yan had become disgusted with the open and widespread corruption of Qing officials in Shanxi, and had become convinced that China's relative helplessness in the 19th century was the result of the dynasty's generally hostile attitude towards modernization and industrial development, and a grossly inept foreign policy. The total number of Nationalist troops present in northern Shanxi by the fall of 1948 was 145,000.

### Yu Jin

The first has him star at Fan Castle alongside and.

### Yu Jin

But within my lifetime, so much has changed! Yu Jin later contributes in the Battle of Guandu by rallying his men to bravely face Yuan Shao's men while evading their fire arrows.

### Yan Xishan yu Jin xi / Wang Xiang zhu bian

Yan's attempts to suppress the opium trade in Shanxi were largely successful, and the number of opium addicts in the province was reduced by 80% by 1922.

**Yu Jin**

Of course these are all fine complaints.

---
