Texas storm stories: A volunteer fire department ran out of water during a fire. A man searched 8 hours for food.

Alert firefighters about your pets.

Best sleep apps of 2020

Monday, and the home's thermostat quickly fell to 36 degrees Fahrenheit. Positive feelings can begin to re-emerge as the focus shifts towards the future.

Home Fire Facts

That temperature difference can mean the difference between life and death. Some in Texas have their power back -- but are still struggling to find food and clean water. After a water pipe burst, the family sought shelter at their church, and expressed gratitude for local leadership providing warming stations.

Managing Sleep, Health & Safety for Firefighters

But these times affect how your body releases melatonin later in the day.

Recovering emotionally after a residential fire

With gas in short supply, she said her farmer neighbor gave her a tank of gas he had in his barn and that's what they've been using sparingly and to fuel a small space heater. This entry on our list of best sleep apps uses your phone's sensors or the Apple Watch to track your sleep, allowing you to view your sleep quality, cycles, and sleep debt over time; you can also log a Sleep Diary and set your target sleep goals.

Managing Sleep, Health & Safety for Firefighters

This morning, their power flickered on long enough that they were able to cook a meal before it went out, again. Keep a familiar smelling blanket in the pet carrier to reduce your animal's stress if there's a stressful event such as a fire.
