Aguayo Takes Command of NAVFAC Atlantic > United States Navy > News

Naval Facilities Engineering Systems Command, Atlantic, Norfolk, VA is the contracting activity. The engineers also must obtain, manage, and haul construction materials for their projects.

Naval Civil Engineer Corps Officers School: Facilities Acquisition and Management

Engineer units are responsible for advising installation commanders on base layout from a construction standpoint, and for assisting with the survey for roads and drainage. For example, at Pleiku, an airfield in the central highlands, the replacement of a Marston matting strip with asphaltic concrete was held up because a rock crusher could not be moved to the site over the highways which were in the hands of the Viet Cong. Trainees will learn about current facility engineering initiatives at the Chief of Naval.

Department of Defense construction agent (US DoD Definition)

If you have more than one DD-214 for multiple periods of active duty service, submit a copy for each period of service. Wallin, CEC, USN T he Naval Facilities Engineering Command formerly the Navy Bureau of Yards and Docks is the construction agent in Southeast Asia for the Department of Defense.

Naval Civil Engineer Corps Officers School: Facilities Acquisition and Management

A BQ military spouse possesses knowledge, skills, abilities, and competencies comparable to others who meet the competitive referral criteria for the specific position. It provides an overview of facilities engineering, including the organization, function, management tools, resources and constraints required to preform within a Public Works Department.
