The worker shortage is impacting the US economy

Temporary help jobs, a segment normally considered a harbinger of future hiring, jumped in January. As shown in figure 5, an unusual phenomenon

in April and May was the surge in labor force participants that were counted as employed but not at work.

How Is The U.S. Economy Doing? 7 Key Signs To Watch During Coronavirus Crisis

By 1980, over 65% were employed in services, between 25% and 30% in industry, and less than 5% in agriculture.

Declining worker power and American economic performance

The decline of in the U. Ample land availability allowed the number of farmers to keep growing, but activity in manufacturing, services, transportation and other sectors grew at a much faster pace.

How unions help all workers

All they had learned from it would help to push the future onto a path that led to freedom

US economy added 49,000 jobs in January

The gain for November was revised from 336,000 to 264,000. The sweat and blood of the growing system, a network of individuals and families and labor camps that grew bigger with each passing year, fueled massive economic change. Data for the prior week was revised to show 33,000 more claims received than previously reported.
