The well was safely drilled to 18,363 feet 5,597 meters depth in 6,781 feet 2,067 meters of water. Originally, this device was used to indicate the directions of the winds and it was then known as a , but the 32 points of the compass rose come from the directions of the eight major winds, the eight half-winds and the sixteen quarter-winds.

Guyana project overview

Most projections developed in years prior had their mathematical transformations performed first, seeking to first maintain equivalence equal-area or conformality angles-at-points without regard to the shearing or areal distortion that would result. UNITED STATES - ATLASES - ca.
