### Collection: American cars by year

By the year 1956, the Corvette race car became a competitive threat in the world of racing. It had a 240 horsepower, 3. Now let's have some fun! The wrap-around back window was extended to more models and the same type front windshield was introduced on the 1954 Oldsmobile Ninety-Eight Starfire, which was named after the Lockheed F9413 Starfire Fighter Jet.

### Cars in the 1950s: History, Pictures, Facts & More

Cars in 1952 Many factors hindered production in the motor industry during 1952, the longest stoppage being caused by the nation-wide steel strike in June and July.

### Top 10 1950s American concept cars

A less expensive Lincoln side-valve V8 would be installed in later cars.

### History of 1950s Cars

Self-adjusting brakes initially were offered on the 1957 Mercury and 1958 Edsel, and other manufacturers soon followed suit.
