## Assessing spatial patterns of crime in Lima, Ohio

Still, while one could argue that air pollution levels and preferences about pollution may have not greatly changed since our period of study, we caution about generalizing our results to more recent years. Specific environmental concerns should merit special attention within a framework of a larger plan in addressing the challenges.

## Pollution and the choice of where to work and live within Mexico City

DCD was established in 1969 and assumed the responsibilities of the City Planning Commission and the Urban Renewal Program. Static elevation and road layers were used in modeling the future changes.
