Liability Issues and Risk Management in Caring for Older Persons (Electronic book text): Marshall B. Kapp: 9780826115799

First, a health care organization must establish what could happen, how likely something is to happen, and the severity of that problem. The benefits and costs of litigious, legislative, and regulatory interventions on the quality of care and the quality of life for recipients of geriatric services is evaluated. This phenomenon is commonly referred to as the.
