**The New Evolutionary
Microeconomics: Complexity,
Competence and Adaptive Behaviour
by Jason Potts**

And, indeed, many heterodox economists have strong leanings toward a holistic, non-reductionistic type of approach. Principally a work of meta-theory, The New Evolutionary Microeconomics argues for a radical refocus of microeconomic research toward the evolutionary nature of institutions, preferences, technology and knowledge. He charts a research program

Filesize: 16.61 MB

for evolutionary economics that encompasses the theory of dynamic efficiency and emergence in markets, a computational model of the learning and interacting agent, a competence-based theory of the firm and the household, and an agent- based foundation to macroeconomics.

The New Evolutionary Microeconomics: Complexity, Competence and Adaptive ...

The New Evolutionary Microeconomics: Complexity, Competence and Adaptive Behaviour (New Horizons in Institutional and Evolutionary Economics) : Jason Potts: quizapp.evertonfc.com.au: Books

It is a work of rare ambition and this is quite unusual in the staid realm of academia. It connected very effectively with my own ways of thinking while providing enlightening new perspectives and indeed substantive novelty. It is a work of rare ambition and this is quite unusual in the staid realm of academia.

The New Evolutionary Microeconomics: Complexity, Competence and Adaptive ...

The expectations section particularly stuck out. Potts writes very, very well and some of his exposition of technical points and issues is spectacularly good.

The New Evolutionary Microeconomics : Jason Potts : 9781840645439

Accordingly, what primarily evolves in Potts's evolutionary microeconomics are connections between elements rather than the elements themselves. But if we are to believe Potts, then the accusation is more appropriately levelled against mainstream economists themselves. This highly innovative and original book proposes evolutionary microeconomics as a synthesis of the collective schools of heterodox economic thought with complex systems theory and graph theory.
