Becoming Dad delivers an unsettling, compelling first novel about secrets, illness, and the role of African-American men in society and family life. Becoming Dad delivers an unsettling, compelling first novel about secrets, illness, and the role of African-American men in society and family life. The characters, the story, the plot and all of the content was powerfully written and I especially liked the pace of the book.

He has just published an unauthorized biography of New York governor Andrew Cuomo, The Contender. SMITH is a true American success story.

## **Before I Forget on Steam**

Before I Forget is, quite simply, unforgettable. As fifty-year-old Mo tries to reach out to his increasingly tuned-out son Trey who himself has become an unwed teenaged father , he realizes that the burden of grief and anger he carries over his own estranged father has everything to do with the struggles he encounters with his son. Plenty of research updates, helpful Web sites and materials to reference for knowledge.
