## Pine Forests: Utilization of its Products

Алексеевского с новыми подходами по изучению и расчету речного стока, его составляющих, гидрологического режима арктических рек и безопасности природопользования, с огромным массивом новых данных и знаний рис.

## Журнал «Лесной вестник / Forestry Bulletin»

Petrozavodsk: Karel'skii filial AN SSSR, 1989. Most general properties of variability, as a phenomenon, will no doubt be similar for the variability of the length of the tail and for the variability in the number of cells in the cerebral cortex. The climatic conditions of the region combination of moderate temperatures and high humidity are favorable for the growth of fir which covers much of the area here with up to three pine trees in its composition.

## Assessment of sustainable forest management criteria using indicators of the international programme ICP forests

The zoobenthos of rivers of Karelia and the Murmansk Region thus has a long history of studies.

## ПАЛЕОГЕОГРАФИЯ ЗАОНЕЖСКОГО ПОЛУОСТРОВА В ПОЗДНЕМ ПЛЕЙСТОЦЕНЕ И ГОЛОЦЕНЕ

With opposite indices of asymmetry, the coefficient of variation may remain unchanged in magnitude. The latitudinal profile in the plains of western Siberia comprised the following points: southern subzone—Baza village  $55^{\circ}$ , midzone—Tundrino village  $61^{\circ}$ , northern subzone—Tarko-Sale village  $65^{\circ}$ , and polar limit of pine distribution—head of Yavoyakha river, tributary of Pur river  $66^{\circ}$ .
