Depression (for Parents)

YoungMinds have also developed which gives young people in England general information about medication.

Depression (for Parents)

But having depression is more than just being sad. The information should be age appropriate and should cover the nature, course and treatment of depression, including the likely side effect profile of medication should this be offered.

Supporting children and students with anxiety

The questionnaire can be used for various purposes, including clinical assessment, evaluation of outcomes, research and screening.

Understanding and Supporting Depressed Children and Young People by Rob Long (Paperback, 2004) for sale online

They will see you and your family and discuss what is the right treatment for you. Visit to learn more adjustment strategies. What can I do if I am feeling low? Detection and risk profiling See also the recommendations on psychological and social issues in children and young people with type 1 or type 2 diabetes in the NICE guideline on.

Understanding stress and depression in children

If your child is experiencing a low mood, they may feel more sad, tearful, worried, tired or angry than usual, or feel low and less confident about themselves — but then feel better after a few days or weeks. This can lead them to think about, speak of, or attempt suicide.

Supporting children and students with anxiety

. Millie said she just couldn't be bothered anymore with anything.

Depression (for Parents)

Having little chats, spending time with them like watching TV, cooking and even physical activities like walking can help to lift their mood even if they say they do not want to do it.

Anxiety and depression in children: Get the facts

If the depression is dragging on and causing serious difficulties, it's important to seek treatment. This should include a written formulation, identifying factors that may have contributed to the development and maintenance of depression, and that may impact both positively or negatively on the efficacy of the treatments offered. There is no specific cause for depression.
