Creating a butterfly garden can provide a safe haven & attract beauty.

The flowers that generate nectar require sunshine and the butterflies crave puddles of water. Targeting Butterfly Species Tailor your garden to attract different species of butterfly with this field guide. The female shown features an iridescent blue band on hindwings.

Butterfly Gardening for South Florida

Bring Butterflies to Your Backyard Create a beautiful destination for beautiful butterflies. Flat-Leaf Parsley Petroselinum crispum This popular aromatic herb is a favorite host plant of Black Swallowtail caterpillars.

Gardening

Some perennials that germinate well in the outdoor garden are chives, butterfly weed, coneflowers, liatris, and yarrow Achillea. While this plant is famous for attracting butterflies, it lacks nutritional value and is actually addictive, preventing butterflies from feeding on healthy plants.

Transform Your Garden into a Butterfly Sanctuary

Though many butterflies will drink nectar from a variety of flowering plants, their caterpillars are often limited as to which plants they can feed on. Plant flowers and bushes in such a way that they can maximum sunlight and energy all day long. Place taller plants at the back and smaller plants in front.

How to Make a Butterfly Garden

Butterflies will spend more time in your yard if they have enticing plants to choose from rather than a sea of grass with scattered patches of flowers.

Butterfly Gardening for South Florida

Group flowers that will bloom at the same time. For example, Tiger Swallowtails seek tall flowers like and.
