## The importance of Social Studies in the School curriculum

Students using the program found themselves in the virtual world of education. If you perceive a difference in child-rearing practices, the best approach is to ask parents about that difference while being careful not to appear critical.

## The Use of Media in Teaching

In many schools and universities, most students do, too. The program is presented as a simulation game to interest and motivation.

## The Use of Media in Teaching

Through the media the teacher could give more opportunity to students to express their opinions and enjoy during the course. Then ask: What are some generalizations we can make about life for a Kiowa boy? At the same time, we must be careful not to give messages, either spoken or unspoken, that what we think is superior to their home culture. A perfect example of a teaching technique based on self-learning is outlined by.

## Facilitating and Encouraging Learning: A Teaching Guide

However, whether it is social media or some other form of technology, education as a social institution has been affected by the rapid growth in media.
