## Adult education in developing countries (1977 edition)

For each year that a girl in a developing nation is in school, her first child is delayed by 10 months. Pregnancy in childhood can prevent a girl from receiving an education, and decreases the chances of her child suffering from malnutrition and disease.

### CAB Direct

This overflow leads to classes where many different educational levels are forced together which does not allow each individual child to benefit from an education adapted to their needs and abilities. All entries carry codes to indicate the topics covered. The Canadian International Development Agency has participated in a variety of evaluation efforts, often in cooperation with the International Council for Adult Education in Toronto, and the International Development Research Center in Ottawa.

### CAB Direct

In addition, if all girls worldwide received a secondary education, 12. Globally, if all girls received a primary education, then 1. For Librarians: Integration of your institutional LibKey profile with CAB Direct is very quick and easy! Funds pledged by the international community are generally not sufficient enough to allow countries to establish an education system for all children.

### CAB Direct

They make up more than 54% of the non-schooled population in the world. Essentially this concerns Sub-Saharan Africa where more than half of children receive an education for less than 4 years.
