**Arnold J. Toynbee**

Beliefs, and Law Cultural attributes of a coin but for analytic convenience that can treated. In addition, Islamization of Science is also a reaction to the crisis of educational system faced by Muslims, namely the dualism of Islamic education system and modern education secular that confuses Muslims. .

**Values in human society; : the contributions of Pitirim A. Sorokin to sociology**

Tendencies such as globalisation, digitalisation and decentralisation are changing the design of the cultural and social sectors of our welfare state.

**social and cultural dynamics**

It has been in publication since 1988 and is currently published by SAGE Publications.

**Articoli di riviste:**

Over centuries, various technological changes have affected and continue to affect all spheres of human activity. The integralism paradigm includes religious values in science and technology, giving birth to religious education institutions with nuanced science and technology, for example modern Islamic schools MIM or Global MI MIG , International MI MII , and others.

**Amitai Etzioni**

The important economic aspects like production, consumption, exchange and distribution are described, compared and correlated with the aid of statistical tools. To tackle apocalyptic agenda in geopolitics of 21st century theologically, the author proposes a re-lecture of the differentiation between »ultimate and penultimate things« Dietrich Bonhoeffer.
