### Kenya: Volunteer at Common ground for Africa

Covid-19 rates remain high, new virus strains are a concern, vaccination rates in Oregon are low, and Washington County is considered.

#### About

Due to Covid-19, we made the challenging decision not to work with the general public at our neighborhood planting events this season. NRCS partners with conservation groups and others to ensure private lands are conserved, restored, and more resilient to environmental challenges like climate change.

#### About

You can reach Jenny, Pablo, and Carey at We look forward to seeing you out there! He believes that there is a major need for collective and individual healing to occur in order for the healing of the planet.

### Kenya: Volunteer at Common ground for Africa

You can reach Jenny, Pablo, and Carey at We look forward to seeing you out there! This means the bees and their needs are often not considered when building and development work take place.

#### About

Qualifications: Dependable, friendly, some knowledge of trees and horticulture and knowledge of Denver Park system

### Creating habitats for bees in an urban environment

Join Friends of Trees, Clean Water Services, and the City of Forest Grove for this fun planting party at Helen Stites Park. This means that you could connect up to four separate LEDs and sets of probes to the chip; for example, to monitor four different potted plants or four different areas in a garden. Earth Team volunteers are an integral part of the conservation partnership and each member takes pride in the fact that they maintain and improve our natural resources and environment on private lands.
