The event was recorded by 1633-1703 The blood did run all the time of those two minutes and we concluded .... Ontleedingh des menschelycken lichaems, 1633. And first I tried to transfer blood from the jugular vein of one animal to the jugular vein of a second by means of tubes between the two; but, seeing the blood clot at once in the tube and block its own passage on account of the slow movement of the venous blood, I soon began to try another way, and guided, as it were, by nature herself, I finally determined to transfer blood from an artery of one animal into a vein of a second ; and by this new device to extend the circulation of the blood beyond the boundaries prescribed for it.

**Richard Lower • LITFL • Medical Eponym Library**

Described his experimental methods; transfusions; clinical observations of heart disease; the nature and function of heart muscle, the change in the color of blood as it passed through the lungs, and the behaviour of the pericardium.

**LOWER, Richard (1631**

This data is provided as an additional tool in helping to ensure edition identification: +++++ Richardi Lower. On November 23, 1667, Lower and Edmund King 1629 — 1709 transfused the blood of a lamb into a 22 year old patient, Arthur Coga who was paid 20 shillings.
