Bismarck was removed by an aggressive young Kaiser Wilhelm in 1890, effectively decentralizing the Bismarckian Order that had been shrewdly managed, and empowering French efforts to isolate Germany.

What period is my house

This period is named for the reign of Queen Victoria, who ascended to the throne in 1837 and lasts until her death in 1901. An author who downplays their enjoyment of recreational drug use in their work benefits from the perception by the general public as being on the side of those who deplore recreational drug use; the adoption of this faux moral stance against drugs became a hallmark of drug fiction, and many 'drug tales' thus become stories wherein the protagonists become object lessons to the readership.

Literary criticism and short stories also achieved popularity. Clive Lee argues that one factor was the continued overcrowding in Scotland's

housing
