Civil Engineering, Bachelor of Engineering, Full

Hands-on laboratory experiences may include measurements in solid mechanics, dynamics, and fluid and thermal sciences, which are summarized in group reports. Starting positions include: consulting design technologists, municipal plan checkers, construction inspectors and supervisors, detailers, technical sales representatives,

material testing technicians, surveyors and CAD operators. Spacecraft orbital mechanics: the solar system, elements of celestial mechanics, orbit transfer under impulsive thrust, continuous thrust, orbit transfer, decay of orbits due to drag, elements of lift-off and re-entry.

Department of Mechanical and Aerospace Engineering < Case Western Reserve University

Recommended Preparation: Mechanics of Materials, Thermodynamics, Statics, Introductory Level Differential Equations, Introductory Level Fluid Mechanics. The lab includes two CNC machines for fabrication of smaller robot components.

Civil Engineering, Bachelor of Engineering, Full

Current students should always consult their advisers and their individual graduation requirement plans as tracked in.

Department of Civil, Construction and Environmental Engineering

. Students choose a real-life engineering design problem and are required to liaise with an industry contact.

Department of Mechanical and Aerospace Engineering < Case Western Reserve University

Courses Courses in bold are required for the specific track. Engineering design implications of geological features such rock structures, surficial material and earthquakes will be discussed. Application of the principle of virtual work to compute deflections for statically determinate and indeterminate problems.

International Journal of Energy and Environmental Engineering

The undergraduate program emphasizes fundamental engineering science, analysis and experiments to insure that graduates will be strong contributors in their work environment, be prepared for advanced study at top graduate schools and be proficient lifelong learners. Airport airside systems based on FAA guidelines. If you are applying for re-admission to level 2, you must also demonstrate the potential to succeed in the program.

Department of Civil and Environmental Engineering < MIT

Research projects with federal and industrial support are carried out by teams of faculty, graduate, and undergraduate students.
