The building also includes staff rooms and a. The Aquatics Centre is a clear demonstration of her art of making the impossible possible, with its huge swooping concrete roof sitting on tiny ground contact points, and making swimmers feel like they can fly. The space at ground level served as an all-purpose gathering place for concerts, protests, socializing, and the like.

Its lack of ostentation is a more direct statement about the absolute power of monarchy than the most elaborate gilded palace. She chose to house the museum in the Solar do Unhão, a former salt mill and part of a network of historic seaside buildings that she restored in 1963. It has played a part in stimulating a real legacy of competitive cycling at the top level in the UK.

### Brazil Builds: architecture new and old, 1652

The family suffered greatly from problems that arose after they started using it. Her next major architecture project was the SESC Pompéia built in

stages, 1977—1986, a leisure and cultural centre in São Paulo sponsored by the nonprofit Social Service of Commerce Serviço Social do Comércio. His style was an ornate mix of Baroque, Gothic, Moorish and Victorian elements that often featured ornamental tile-work, and drew upon forms found in nature—an influence that can be seen in the tree-like columns holding up the vast interior of his church, as well as the undulating facade of another of his famous creations, the apartment block known as the Casa Milla inspired by the multi-peaked mountain just outside of Barcelona called Montserrat.
