## THE BENDING CROSS: A BIOGRAPHY OF EUGENE VICTOR DEBS 1949 BOOK BY RAY GINGER

Somewhere between a biography and a praise poem, Ginger does a great job outlining Debs' selfless commitment to the labor movement and class struggle. Some figures he thought important seem irrelevant today. I never met Eugene Debs, so I cannot verify the characterization of the man, but the Debs that we read about the pages of Ginger's biography is so nice and so aloof that I honestly would not believe him as a character in a fictional work.

Ray Ginger, a socialist scholar of the heart as well as the mind, captured the real Debs.

### The Bending Cross: A Biography of Eugene Victor Debs by Ray Ginger

Eugene Debs, leader of the Socialist Party in the USA and 5-time candidate for President of the US, what I and others would call a closeted anarchist was a radical labor organizer, socialist, and Industrial Workers of the World founder among other things at the turn of the 20th century.

Debs is dead and everybody says he was a good man. He was a husband, A.

This is a biography worth reading for sure. A story about Debs needs to be woven into the fabric of the period to truly tell his story. It's a strange situation which makes it hard to explain that I have seen that the problem with unions in America, why they annoy people, is not that they're too radical, but too conservative.

After finishing the book it was tough to know if I was more impressed at Debs' character, grateful for his contributions, or fascinated at how far we both have and haven't come as a country. He was no better and no worse when he served a sentence in Atlanta. But Debs is such a singular figure, and the story of his times so resonant, that even those who are not socialists could find a lot to learn here.
