Gideon Lincecum Herbarium

He purchased 1,828 acres of the fertile prairie land he had seen on his Texas visit thirteen years before. The quantity of game that was found in that dark forest and the canebrakes was a subject of wonder to everybody.

Gideon Lincecum 1793

In the latter year he went to Texas, where he settled at Long Point, on a tract of land that he had chosen while exploring Texas thirteen years before. From his voluminous letters, Mrs. In Texas Lincecum continued to practice medicine, made geological explorations, assembled a plant collection including 500 species with medicinal properties, kept a meteorological journal that charted drought cycles, and observed and recorded the daily activities of insect life.
