Ecological readings in the Veda : matter, energy, life in SearchWorks catalog

With her critical Florentine mind and five-decade-long involvement in scientific methodologies, she interprets the complex Vedic verses in her thematic effort to decipher the ancient code with a bio-ecological key - spelling out, contextually, the Matter-Energy principles embodied in Lord Agni and Life-Hope principles personified by Lord Savitr. In looking for answers, she discovers profound biological, physiological, and ecological insights in Vedic writings which she projects here, with coherent analyses and prolific textual references.

Ecological Readings in the Veda: Matter

Dr Vannucci, who has studied Indian sacred texts for about twenty years, is perhaps the first ever biologist to explore the ecological validity of Vedas. About the Book: Ecological Readings in the Veda: Matter-Energy-Life The Vedas are indisputably among the oldest of mankind's documents.
