

# Communications of the Geological Survey of Namibia. by C. Kennedy Galloway

## Namibia Ministry of Mines and Energy - Stratigraphy of the Karoo Supergroup in southern Africa: an overview

Description: -

-  
Geological Surveys - Cost effectiveness  
Geology - United States - Maps  
Geology - Law and legislation - United States  
Middle Ages -- Poetry.  
Sedimentary basins - Colorado  
Law reports, digests, etc. -- Maine  
Law reports, digests, etc. -- Massachusetts  
Quaternary  
Sustainable development.  
Global environmental change.  
Grey literature.  
Technical reports.  
Technical literature.

Architecture.

Mackintosh, Charles Rennie, -- 1868-1928.

Geology - Finland

France -- In literature

French philology in literature

James, Henry, 1843-1916 -- Knowledge -- Language and languages

James, Henry, 1843-1916 -- Knowledge -- France

Petroleum -- Prospecting

Geology - New York (State)

Ethologists -- Austria -- Interviews.

Lorenz, Konrad, 1903- -- Interviews.

**Compilation of the Namibian airborne magnetic surveys: procedures, problems and results**

Toward a Neoproterozoic composite carbon-isotope record. The operations included limited surface production and underground mining at both Kombat and Gross Otavi.

Filesize: 30.41 MB

## Geophysics

The syntectonic Mulden Group deposited between the first D1 and second D2 phases of Damaran deformation on the Northern Platform comprises the erosional debris of the developing orogen. Earth and Planetary Science Letters 245, 551-570.

## Characterization of fluid inclusions from mineralized pegmatites of the Damara Belt, Namibia: insight into late

. Journal of Asian Earth Sciences, 156, 41-58. In the Okwa Group, detrital zircons extracted from Neoproterozoic sedimentary rocks of the Takatswaane Formation yielded the following dates: 1887±14 Ma, 1246±4 Ma, 1054±5 Ma, 627±6 Ma and 579±12 Ma.

## Andradite from Navachab Gold Mine, Karibib Constituency, Erongo Region, Namibia

Dans certains bassins du Karoo les couches du Permien ont pu faire l'objet d'une biozonation palynologique. In 1994, the Geological Survey embarked on a programme of High Resolution Airborne Geophysical surveys designed primarily to assist and promote mineral exploration. Six defined ore blocks have been delineated to date that are collectively termed Kombat Mine and are located on the northern limb of the canoe-

shaped, doubly plunging Otavi Valley Synclinorium, in the contact zone between phyllite of the Kombat Formation and underlying dolomites of the upper Tsumeb Subgroup.
