NSRD-NBS -- 39

National standard reference data series -- 39Tables of molecular vibrational frequencies.

Notes: Supersedes and extends data in, Tables of molecular vibrational frequencies, NSRDS-NBS-6, Pt 1; NSRDS-NBS-11, Pt 2; and NSRDS-NBS-17, Pt 3.

This edition was published in 1972

Molecular Spectroscopic Data

In order for a vibrational mode to absorb infrared light, it must result in a periodic change in the dipole moment of the molecule. Kahn Academy video tutorials on infrared spectroscopy by University of Minnesota, Morris The LibreTexts libraries are and are supported by the Department of Education Open Textbook Pilot Project, the UC Davis Office of the Provost, the UC Davis Library, the California State University Affordable Learning Solutions Program, and Merlot.

Molecular Spectroscopic Data

Polarized and Depolarized Raman Bands 12 The assignment of Raman lines may be aided by measuring their intensity with a polarizing filter, first parallel and the perpendicular to the polarization of the incident radiation.

12: Vibrational Spectroscopy of Diatomic Molecules

In the hybrid potential scheme the MP2 method was used for the harmonic part of the potential and a modified HF method was used for the anharmonic part.

Calculation of Vibrational Frequencies — xtb doc 6.2 documentation

The study was performed using synchrotron radiation from the Daresbury storage ring that was dispersed with a 5 m grating monochromator that afforded resolution of 0. The total time of the MD simulation for spectrum calculations is 0.
