**The Top 10 Solutions to Cut Poverty and Grow the Middle Class**

Individual choice and social structure co-mingle, yielding a Gordian knot of pathology difficult for policymakers to cut. Stress in turn impairs the mental health of urban residents.

These are the challenges faced by India's urban poor

To successfully revitalize high-poverty neighborhoods, change the trajectories of kids in those neighborhoods, and compete in the twenty-first century economy, we must follow the example that innovative local actors have set across the country—solving housing, education, safety, workforce, and health challenges concurrently, in partnerships built across government, business, and nonprofit sectors. A person who is convicted of a violent felony—a blameworthy choice—could face years of penury, but their

Cities are deviant places precisely because
they are cities. In the end, the wealthy
country gains a new trading partner, and
the developing country gains a sustainable
way to grow its economy.

New solutions to the global homelessness problem

Because of their circumstances, they are at
greater risk than their housed peers for
hunger, asthma and other chronic health
conditions, and stress and emotional
problems. Education is the beginning of
getting out from hardships of life. City
neighborhoods differ in their degree of both
types of crowding, and those that have
higher crowding rates should have higher
crime rates, all else equal.

Great Society

For example, if a family is living literally in
the streets, we would all agree they are
homeless.

Applying Social Research Urban
Neighborhoods and Poor Health Social
scientists have long thought that poor urban
neighborhoods pose, in and of themselves,
significant health risks for their residents.
Many of the lowest-achieving schools
targeted for improvement under Race to
the Top, an Obama administration
competition to encourage and reward
states that are creating the conditions for
innovation and reform, are located in
communities where local leaders are
pursuing a range of neighborhood
revitalization initiatives. In the 1990s, the
federal government conducted an
experiment in which 1,800 poor urban
women were randomly selected and, with
their permission, assigned to move from
their neighborhoods to wealthier
neighborhoods.
